Subject: [Non-DoD Source] Rosemont Mine

Hi Deanna,

As I discussed with you yesterday, EPA HQ contacted Region IX regarding a February 2, 2018 letter from Hudbay to you and William James, Corps. This letter was a response to EPA comments on the Significant and Irreversible Environmental Consequences of Groundwater Drawdown from the Proposed Rosemont Copper Mine, October 5, 2017 (Revised November 30, 2017). The letter from Hudbay was provided to EPA HQ from a stakeholder. Neither Hudbay or the Corps provided us a copy of the letter. We were not aware of it until yesterday. In addition, the Hudbay letter references earlier comments (January 25, 2018 and February 1, 2018) provided by Hudbay to the Corps regarding EPA analyses of the proposed Rosemont Mine project. EPA has not received nor were we aware of these comment letters, as well.

As you propose, EPA would like a conference call to discuss this issue and the status of SPD's review of the proposed Rosemont Mine with you and William James. In addition, please provide us with copies of Hudbay's previous correspondence, referenced above.

Thanks. I look forward to hearing from you,

Elizabeth
